

STORY OF \$ALWIN

The Golden Swalt

\$ALWIN The Toad, seeing the notoriety of certain celebrities, decided to take his own path and also find his own community, glory and wealth. His "One Piece".

So after leaving his neighborhood(swamp) which is teeming with insects and parasites of all kinds, ranging from profiteering toads, procrastinators and of course from ToaSlut to ToaBitch, due to the proximity of certain wealthy neighborhoods.

\$ALWIN set out towards his own Destiny.

It was a long crossing of the Desert, as he began to Despair and felt his Vitality beginning to leave him, suddenly without understanding what was happening to him, an Oasis sprang up before his eyes.

A Lush Pond surrounded by immense Palm Trees with a Cabin Restaurant called "Salt Swan" where delicious insects were prepared by a Known and Recognized Chef who distributed Salt on his dishes like a Swan in Run.

After stopping to eat and have his skin Salted, following months of Wandering and Uncertainty, he decided to take a dip in the pond to moisturize his skin cracked by the dryness of the Desert and the Salt of the Great Swan.

He climbed the tallest palm tree and jumped into the center of the pond as if it was going to be his last jump.

He dove so deep that when he reached the bottom of the pond, he felt something under his paws which he brought to the surface.

He had just discovered an ancient treasure in which a "TON RoadMap Piece" was placed.

And that's where his Real Quest began. The \$ALWIN Legend was born!
